

Bio Blocks

Fast Acting Biological Urinal Blocks

Biological, biodegradable and bleach free, Bio Blocks naturally break down urine and organic waste while bringing a touch of fragrance to your washroom.

KEY PROPERTIES

Bio Blocks contain biological enzymes to digest urine crystals and keep urinal drain lines running freely and are perfumed to provide a pleasant fragrance.

Unlike traditional channel blocks they are pDCB free: pDCB is recognised as being a carcinogenic material and a water pollutant.

- Biological
- Pleasant fragrance
- pDCB Free
- Septic tank friendly

APPLICATION

- For use in individual urinal, place one in each urinal.
- For use in urinal troughs, place approximately 50cm apart.
- Replace when reduced to approximately 5-10% of original size.

NB: When used in “waterless” systems, we recommend regularly sluicing urinals with our biological multi-purpose surface spray Bio Clean - ideally daily.

TECHNICAL DATA

Appearance	Solid blue blocks		
pH	Approx. 7.0	Bacterial Count	1.0×10^7 cfu/ml

NOTE

When using Bio Blocks, avoid using in conjunction with bleach, caustic / alkaline or disinfectants based products as they will affect their performance. To complement Bio Blocks in your cleaning programme, we recommend the use of Bio Clean and Bio TCD.

PACKAGING

Tubs of 50 Blocks

SAFE HANDLING AND STORAGE

Store in original containers and avoid extremes of temperature. For guidance on handling and disposal see Safety Data Sheet.
