

Grease Control Pillows

Biological Treatment of Grease Traps

An environmentally safe biological pillow that liquefies fats, oil and grease in grease traps used by smaller catering establishments.

KEY PROPERTIES

The biologically active tube fits within the grease trap to digest Fats, Oils and Grease (FOG) in drain lines and fat traps. Contains only Euro Type One bacteria, i.e. safe for long term exposure. Offers up to a three month life cycle with no maintenance.

- Biological
- Labour saving
- Removes malodours

TYPICAL USES

For the maintenance of free running drain lines and grease traps.

APPLICATION

- Clean grease traps and re-seed using the Grease Control Pillow.
- Replace every 8-12 weeks.
- For removal of drain line malodours and maintain free flowing conditions use also **Grease Control Powder**.

TECHNICAL DATA

Appearance	Biologically treated fibres in polypropylene mesh bag
Bacterial Count	$> 1.0 \times 10^7$ cfu/g

PACKAGING

- Small pillow (10 x 23cm) – boxes of 6
- Large pillow (13 x 46cm) – boxes of 6

SAFE HANDLING AND STORAGE

Store in original boxes and avoid extremes of temperature.
For guidance on handling and disposal see Safety Data Sheet.
